3 Outlook

Q3 2021 highlights

Financials

- Profit before tax 50.3 MNOK (profit after tax 37.9 MNOK)
- Successful issuance of Tier 1 & 2 capital below current yield curve as well as achieving a more diversified call structure
- CET1 Capital ratio of 23.3% (25.4% incl. YTD profit)

Credit quality

- Forward flow agreement in place for Finland to mitigate stage 3 risk
- · Lower risk on new loans has reduced both margin and loss
- Reduced uncertainty around loss impact of Covid-19

Growth development

- Increasing demand for consumer loans in Q3 on the back of fewer Covid restrictions
- Growth in Finland offsets declining volumes in the Norwegian market
- Relaunch of consumer loans in Sweden

3 Outlook

Increased profitability

Solid capital buffer provides operational and financial flexibility

Equity and CET1 ratio¹, MNOK

Profit after tax and Return on Equity², MNOK

Note: All figures left of the dotted line are standalone Easybank throughout the presentation, if not stated otherwise

¹⁾ CET1 ratio includes YTD unaudited profit

²⁾ Equity used in the ROE calculation for Q4 2020 is the average of the opening balance as of 1 October and 31 December. ROE adjusted subtracts excess capital from the calculation (capital req. + mgmt. buffer)

Strong financial development since inception in 2016

Break-even after three quarters followed by unbroken track record of profit

BRAbank is reusing Easybank's model of proven scalability

BRABANK

Increased interest-bearing portfolio

Gross loans development impacted by one-off sales

Gross lending, MNOK

Comments

- One-off sales so far in 2021 (in Q1 and Q2) of 570 MNOK in Norway and Finland combined
- Additional sale of defaulted loans of 49 MNOK in Q3 (YTD 159 MNOK) under forward flow agreement with Kredinor
- Decline in Norwegian volumes is offset by growth in Finland

Still attractive risk/reward

BRABANK

Improved credit quality and still low funding cost

Net interest income and net interest margin of total assets

Yields end of quarter¹

¹⁾ All figures are end of quarter and nominal

Competitive cost to income

Continuous focus on further cost improvements

- Competitive C/I ratio at 31.8 %
- Ambition to further reduce other administrative expenses, primarily related to IT
 - Phase-out and reduction of IT vendors
 - Several contract terminations will expire end 2021, further reducing Opex in 2022
- Management executing on a cost synergy plan to secure a leading C/I ratio going forward

BRABANK

Operational C/I-ratio¹

MNOK

¹⁾ Q4-20 adjusted for merger related one-offs. Combined C/I calculated as sum of pre-merger BRAbank and Easybank

BRABANK

Termination of the credit card products

Cost reductions and reduced operational complexity

Background and actions

- Monobank and old BRAbank invested heavily in best-in-class credit card solutions and has operated Widerøe credit card, Monocard and BRA Kreditkort
- Lack of scale has left the product setup unprofitable
- Agreements with Widerøe, Braathens Aviation AB and key vendors have been terminated
- Intangible assets related to credit card setup were written off in relation to the merger October 1st 2020, hence no P&L impact
- BRAbank owns intangible assets related to the credit card solutions, and has an option to relaunch if an attractive market possibility occurs

Realized cost synergies one year after the merger

Further cost savings driven by termination of agreements and continuous cost focus

Improved credit quality

As a result of sale of defaulted loans and higher quality on new volumes

Significant improvement in stage 3 ratio

Positive development in loan loss ratio

Comments on credit quality development

- The forward flow agreement with Kredinor is still valid until year-end 2023 for alle new cases sent to debt collection in Norway. The bank has also agreed on a forward flow agreement in Finland for next 12 months
- Sold defaulted loans with outstanding claims of 729 MNOK in 2021, from two one-offs and the ongoing forward flow with immaterial positive impact
- The portfolio sales confirm provisions levels and contributes to de-risk the portfolio considerably. As a result of this reduction in NPL, provisions related to uncertainty around Covid-19 has been reduced from 35 to 25 MNOK
- Improvement in credit quality for Norway and Finland LTM contributes to lower loan loss ratio

BRABANK

Forward flow agreements and one-off sales

Has significantly reduced uncertainty in stage 3 over the last years

One-off sales and forward flow sales as of 2021 YTD, MNOK

Stage 3 allocation per country, 592 MNOK

- Norway: Covered by the forward flow agreement with Kredinor since 2017 – selling late in the collection process
- Finland: New forward flow agreement signed selling early in the collection process
- **Sweden:** Loans originating from pre-merger. Stage 3 provision rate is 67% on the portfolio

Dividend policy BRABANK

New dividend policy for BRAbank

"BRAbank aims to deliver financial results that provide shareholders with a competitive return on equity, and create value for shareholders through dividends and increased valuation.

Capital, which is not allocated for growth purposes, can be paid as cash dividends.

When determining the dividend level, the bank's solvency must be taken into account - including expected profit development, future capital requirements, growth plans, regulatory framework, laws and guidelines and the bank's strategic goals."

Regulatory framework and legislation

- Only the profit for the preceding financial year can be distributed as a dividend, cf. Finansforetaksloven § 10-6 second paragraph.
- Dividend is decided by the annual general meeting as (and within the limits) proposed by board, alternatively by the board based on a power of attorney from the general meeting.
- Extraordinary dividends cannot be distributed on the basis of a revised interim balance sheet. As a result, banks can only pay dividends in connection with the allocation of profits in the annual accounts.
- If the board decides to submit a proposal for a dividend which means that the total dividend in a single year will exceed half of last year's result, the board shall notify Finanstilsynet of the proposal, cf. Finansforetaksloven § 10-6 third paragraph.
- Finanstilsynet may, when considering the bank's solvency, order the bank not to distribute dividends or to distribute less than what has been proposed by the board or approved by the general meeting, cf. Finansforetaksloven § 10-6 fourth paragraph.
